

NuSYM2018 (8th International Symposium on Nuclear Symmetry Energy)

Monday, 10 September 2018 - Thursday, 13 September 2018

Scientific Programme

NuSYM18 (8th international symposium on nuclear symmetry energy)

You can download the current program [here](#).

Theories of nuclear reactions and symmetry energy

Correlation & clustering

Symmetry energy in nuclear structure

Transport codes comparison

Influence of the symmetry energy on the structure of objects and processes in the femto and astrophysical scales

Symmetry energy & pion production

Constraining symmetry energy with heavy-ion reactions
