

Future collaborations between Korea and Japan

Seung-il Nam*

Department of Physics, Pukyong National University (PKNU), Busan, Korea

Hadron Physics

Korean side: Inha, Soongsil, PKNu

Japanese side: RCNP, J-PARC

Nuclear Physics

Korean side: Soongsil, Daegu, Korea, Seoul, KAU, CENS/IBS

Japanese side: RCNP, RIKEN, Tokyo

Relativistic A-A collision

Korean side: Yonsei

Japanese side: JAEA

Hadron Physics + Nuclear Physics

Top-tier program (IRIS, CENS/IBS & RIKEN) via developing RAON facility

Neutron star

Daegu & RCNP working on DFT calculations

Small-x physics

EIC physics in Korea by Yonsei, PNU, KNU..

EIC physics in Japan: Tokyo?

Bound for Future!!

Today's workshop opens new collaborations and exchanges of ideas in nuclear & hadron as well as Korea and Japan.

Maybe next time we expect larger and more active discussions and deepening friendship.

See you again in 2026!!!

Thank you for your attention!!

(NRF-2018R1A5A1025563, 2022R1A2C1003964, and 2022K2A9A1A0609176)
